Introduction

AF Apparel (Pvt). Ltd was established in 1992. It is a cut to pack garments manufacturing facility. Furthermore, we have added a knitting unit containing 16 numbers of machines to boost up our production process in 2019. Production infrastructure improvement is our continues process. We are going to integrate our production facility step by step with the addition of printing setup, embroidery machines & testing laboratory.

AF Apparel has several years of experience & accomplishment; the company is now a leading competitive knitwear-organization in Pakistan. It has arduously re-engineered each step of its value-chain to match the dynamism of the fashion market.

AF Apparel has expanded its capacity, size, development, skilled workforce, and introduced integrated technologies, criteria and its own production infrastructure to remain globally up-to-date. AF Apparel covers over 200,000 Square feet of factory area, with a production capacity of 2 thousand pieces per day. We are planning to double our capacity in near future by adding 200,000 Square feet area in our production facility.

AF Apparel is truly an organization with a glorious past and bright future.

Certifications & Achievements

Our Mission

<p>The management of AF Apparel & our employees are dedicated to producing International quality standard in the garments. Sampling & Product Development Centre

AF Apparel have a team and a separate department of Sampling & Product development consisting of our own Paris based designers team, and we are equipped with state of the art sample rooms, which developed our varied range of garments that are designed by us as well as from our reputed clients.

We have a team of sample makers who work in union with the clients & Business Partners. Our experts supervise the complete sampling process from fabrication to sewing & finishing. [We certify prompt sampling and approvals – usually just 3days shipping.](#) We believe that we can make perfect samples in shortest possible time span for our potential customers.

We treat designing, sampling and product development as the root and base of our productions

Production/Cutting/Stitching/Packing

In Garments manufacturing, cutting is the most important stage to developing the product as per required specs & standards. In other words, we can say that cutting is the base process of any garment.

We have a wide range of stitching machinery manufactured by some of the world's most well known & authentic companies, such as Siruba, Typical, Juki, Brother, Kansai, Zoje etc.

Our dedicated team & **most advanced cutting equipment** help us to maintain our best quality standards to meet customer's needs. We assure quality in every step, specially in our cutting department by using automatic fabric spreading & cutting machines. Our well trained team is inducted to check, assure & maintain quality in cutting department.

In our stitching department we have skilled and highly experienced team. The most modern production and operation management are used for smooth and an incessant flow of work.

Product Range

Product Range

Social Standards

We, being a trend setter for high quality and productivity believes to set & run parallel high social standards that are well acknowledge by international & national bodies.

Legal Requirements

We believe in complete adherence to the law by all our employees , and, to comply with all the legal standards in the labor code , we respect the legal and moral rights of all our workers.

Forced Labor

All the workers are paid and working voluntarily in our factory; there is no binding in terms of work against will, and the company is strictly against indentured and bonded labor.

Harassment & Abuse

We treat all our workers with reverence and respect. No employee shall be subject to any physical, sexual, psychological or verbal harassment and/or abuse in our factory.

Child Labor

We strictly follow policy regarding child labor and no worker is allowed to work in Creative Apparels if he/she is not of the legal age limit of 18 years.

Wages & Benefits

By following the labor law , we pay our employees at least the minimum wage required or the prevailing industry wage (Whichever is higher) and provide all legally mandated benefits. We also compensate our employees for overtime hours at the rate established by law (Double their gross wage).

Non-Discrimination

Our factory believes in non-discrimination and we only look at merit while recruiting and in other matters such as increment etc. There is no difference because of gender, race, religion, age, disability, sexual orientation, nationality or social or ethnic origin on the status /remuneration levels of employees.

Health & Safety

The factory assures a safe and healthy working environment to avoid all types of accidents and injuries. We make a responsible contribution to the health care needs of our employees.

Freedom of Association

Our factory believes in allowing all of its employees to join any organization of their own choice. We recognize and respect the right of employees to have freedom of association & collective bargaining. There is no intimidation or harassment in the exercise of their right to join, or refrain from joining, any organization.
